"UPDATE of the WORKING PAPER ON THE EVALUATION OF NATIONAL RURAL NETWORK PROGRAMMES"

Intervention Logic Spain, OF-1. To improve the implementation of RDP

**Objectives**

OF-1. To improve the implementation of RDP in Spain.

OE-1.1. To strength the programming and implementation capabilities of the Rural Development Programs.
OE-1.2. To improve governance of all actors implied in RDPs.
OE-1.3. To support the identification, analysis and transfer of good practices.

**Indicators**

Impact:
I.I.1. Rate of management improvement of Rural Development Programmes.
I.I.2. Assessment of the RDP’s results in rural areas.

Result:
I.R.1.1. Rate of attendance at meetings.
I.R.2.1. Satisfaction rate of the utility of meetings and other experiences (fairs, seminars, conference, etc.)
I.R.2.2. Satisfaction rate of the utility of studies and technical assistance.
I.R.2.3. Satisfaction rate of the software developments / webs.
I.R.3.1. Induced changes in terms of adaptation programming and improved implementation.
I.R.3.2. Increase the governance
I.R.3.3. Rate of transferable and feasible of Exchange innovation experiences and good practices

**Outputs**

I.E.1.1. Number of meetings and experiences
I.E.2.1. Number of participants in meetings and experiences
I.E.1.2. Number of studies carried out
I.E.1.3. Number of technical assistance actions
I.E.1.4. Number of software development (created or maintained)
I.E.1.5. Number of diffusion actions of good practices

**Activities**
**Intervention Logic Spain, OF-2 To increase the capability of the rural areas**

**Objectives**

OF-2. To increase the capability of the rural areas, especially with a bottom-up approach.

**Indicators**

- I.R.1.3. Cover Rate of the LAG’s support actions (\(n^o\) of LAGs covered / \(n^o\) of existing LAGs).
- I.R.1.4. % Attendees who successfully complete training activities.
- I.R.2.2. Satisfaction rate of the utility of studies and technical assistance.
- I.R.2.4. Satisfaction rate of trainings and others formation activities implemented.
- I.R.2.5. Assessment of the usefulness of mechanisms / tools of GAL cooperation developed.
- I.R.3.3. Rate of transferable and feasible of Exchange innovation experiences and good practices.
- I.R.3.4. Increase the cooperation relationships.

**Impact:**

- I.I.3. Rate of management improvement of LAGs.

**Result:**

- I.R.1.3. Cover Rate of the LAG’s support actions (\(n^o\) of LAGs covered / \(n^o\) of existing LAGs).
- I.R.1.4. % Attendees who successfully complete training activities.
- I.R.2.2. Satisfaction rate of the utility of studies and technical assistance.
- I.R.2.4. Satisfaction rate of trainings and others formation activities implemented.
- I.R.2.5. Assessment of the usefulness of mechanisms / tools of GAL cooperation developed.
- I.R.3.3. Rate of transferable and feasible of Exchange innovation experiences and good practices.
- I.R.3.4. Increase the cooperation relationships.

**Inputs**

- OE- 2.1. To increase the capability of actors implied in rural development.
- OE- 2.2. To establish a stable and permanent relationship framework between all actors involved in rural sustainability and particularly between local actions groups.
- OE- 2.3. To improve the realization of innovating experiences in rural areas.

**Activities**

- OO- 2.1.1- training activities
- OO- 2.1.2- Self Assessment by the LAG.
- OO- 2.1.3- Incorporation of rural areas to the information society
- OO- 2.1.4- collaboration outside the territory to provide expertise and technical resources.
- OO- 2.2.1- development of mechanism and tools that promotes cooperation.
- OO- 2.2.2- involvement and participation of various actors, institutions and social sectors in cooperation projects (private sector, universities, etc.
- OO- 2.2.3- Specific training in cooperation
- OO- 2.3.1- To provide technical assistance for the development of innovative experiences in rural areas.
- OO- 2.3.2- creation and maintenance of structures for the development of innovative experiences.

**Output**

- I.E.1.2. Number of studies carried out
- I.E.1.3. Number of technical assistance
- I.E.1.6. Number of seminar and trainings
- I.E.1.7. Number of promoting actions of information society
- I.E.1.8. Number of promoting actions of cooperation and collaboration between agents
- E.1.9. Number of actions designed to create or maintenance structures for the development of innovate experiences
- I.E.2.2. Number of participants in training actions
- I.E.2.3. Number of rural areas / LAG involved in training actions
- I.E.2.4. Number of territories involved in the promoting actions of information society
- I.E.2.5. Number of involved agents in external collaborations
- I.E.3.2. Number of training days
- I.E.3.3. Number of assisted LAG
- I.E.3.4. Number of projects receiving technical assistance
- I.E.2.6. Number of involved agents in the support innovated experiences
**Intervention Logic Spain, OF-3. To promote knowledge about rural issues**

**Objectives**

OF-3. To promote knowledge about rural issues

**Indicators**

**Impact:**
- I.I.6. Improve the perception of rural areas.
- I.I.7. Rate of knowledge of the Rural Development Policy.

**Result:**
- I.R.1.2. Rate of the software development (nº users, nº visits, etc.)
- I.R.1.5. Rate of the diffusion and dissemination activities: geographical coverage of the NRN participation of fairs, events, conference, etc.
- I.R.2.1. Satisfaction rate of the utility of meetings and other experiences (fairs, seminars, conference, etc.)
- I.R.2.3. Satisfaction rate of the software developments / webs.
- I.R.3.5. Diffusion of the implement activities in the different media.

**Outputs**

- I.E.1.1. Number of meetings and experiences
- I.E.1.4. Number of software development (created or maintained)
- I.E.1.10. Number of dissemination actions / publication development
- I.E.3.5. Number of diffusing publications
- I.E.3.6. Number of fairs, conference in which the NRN take part.

**Requirements**

- OO- 3.1.1- To support the conference, seminars, congress, and other events of meetings carried out, and the discussions on rural issues.
- OO- 3.1.3- To support the creation and maintenance of a Web site for the diffusion of activities.
- OO- 3.2.1- To support the development and diffusion of publications on rural issues.
- OO- 3.2.3- To support the participation in national and international fairs related to rural issues.
- OE- 3.1. To promote mechanisms for the dissemination and Exchange of knowledge about rural issues.
- OE- 3.2. To support the dissemination of knowledge about rural issues throughout developing documents or participating in forums and events.
