Introduction and main findings

The ENRD Communication Tools Survey was launched on 17/12/2013 with **the purpose** of receiving **feedback from ENRD stakeholders regarding their use of ENRD communication products** and tools. By the deadline for submission of responses (14/02/2014) 61 ENRD stakeholders have responded to the online survey (https://www.surveymonkey.com/s/ENRDCommunication_Survey).

The survey results – after assessment and discussion and agreement of conclusions and recommendations with DG AGRI – can be used for refining the targeting and use of ENRD CP communication tools in the future work of the ENRD CP. This **draft report** provides a **summary about the survey and a preliminary summary of responses**.

The **main findings** can be summarised below as follows:

- The biggest group of respondents was Local Action Groups.
- The key benefits of ENRD Communication tools include providing access to RD information, contributing to a better understanding of EU RD Policy and to building networks and contacts.
- Most of the respondents replied that they use ENRD Communication received in their communication which indicates a high degree of multiplication of ENRD information.
- With regard to publications, in terms of relevance of information provided, the top achievers` are ENRD Magazine, Rural Newsflash, EU RR - all with "Yes" responses representing >80%.
- The ENRD website is highly rated. 44 out of 60 respondents access it at least once a month. The majority rate its design and content "good", "very good", or "excellent".
- Considering languages, according to 62.7% of respondents it is "very" or "highly" important to have information in other than the main EU languages. However, 72.9% of the 59 respondents find the "light" version moderately or not at all useful or are not aware of it at all.
- 73.8% of the respondents (45 out of 61) "never" or only "rarely" access MyENRD/opENRD – from the ones who use it "My Events" is the highest rated.
- Only about 10% of the respondents find the social book-marking functions on Facebook and Twitter useful. However, this low rate has to be considered together with the fact that only about 50% of the respondents use social media.

Structure of the survey

The survey encompassed all of the areas in which ENRD communicates with its stakeholders.

- Questions 6, 13, 17,18 and 19 were qualitative evaluation questions.
- Questions 1&2 established the stakeholder group of the respondent and whether the respondent`s organisation makes use of ENRD communication products or not.
- Questions 3&4 aimed at getting information on ENRD Communication Tool users` opinion of the relevance of information provided and the frequency of accessing the ENRD website (main communication tool of the ENRD).

- Questions 3-13&15 focused on various aspects of the ENRD Website (design, relevance and usefulness of information, languages, social media use).
- Question 14 enquired about ENRD publications, while Question 16 about what ENRD Stakeholders use the info-line for.
- Questions 17-19 asked the respondents to share their comments on the benefits of using ENRD communication tools and recommendations regarding improvements of these tools.

The list of questions and total number of responses is presented below.

Summaries of survey responses

1 Please state which stakeholder group you belong to.

Out of 61 responses, the single **biggest group of respondents was Local Action Groups** (45.9% of respondents), with National Rural Networks at 2nd (24.6%) and Managing Authorities at 3rd place (14.8%). 3 responses (4.9%) came from Paying Agencies, while 6 EU Organisations also filled in the survey (9.8%).

- 2 Does your organisation communicate information received from the ENRD? (e.g. by disseminating ENRD-related information):

Out of 61, 48 respondents (78.7%) responded "Yes" which indicates a **high-multiplication rate for the ENRD information.**

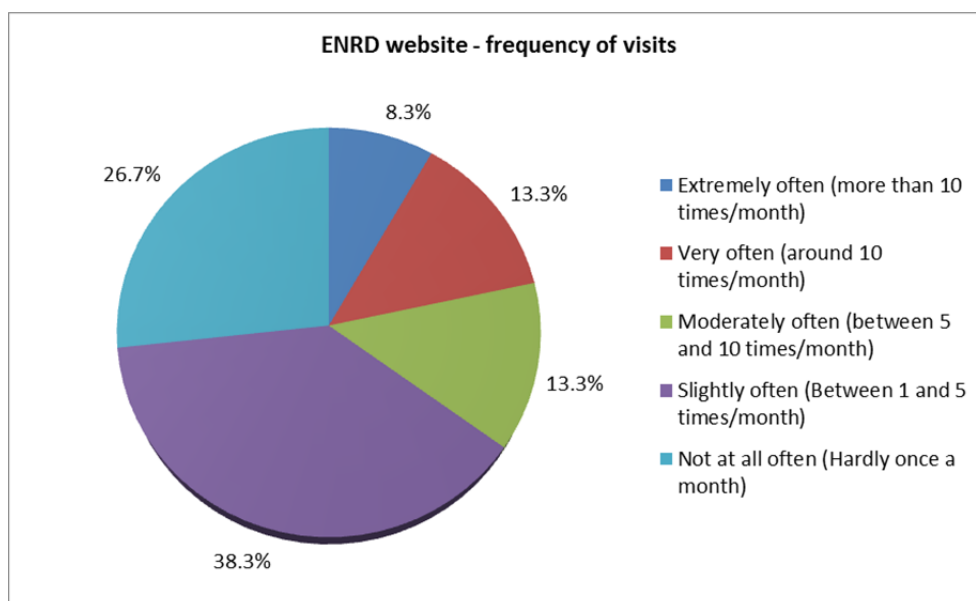

- 3 For each of the following ENRD communication tools - ENRD website, ENRD Magazine, Rural Newsflash, EU Rural Review, MyENRD/opENRD online community, Twitter and Facebook, ENRD infoline - please indicate whether you receive relevant information for your organisation's needs.

60 responses were received for this question. The **`top achievers` are ENRD Magazine, Rural Newsflash, EU RR - all with "Yes" responses representing >80%** of the total responses. The medium achievers are Twitter, Facebook, and the MyENRD/opENRD online community (between 55-65%), **while the lowest rated tool is the ENRD Infoline with 41% "Yes" responses.**

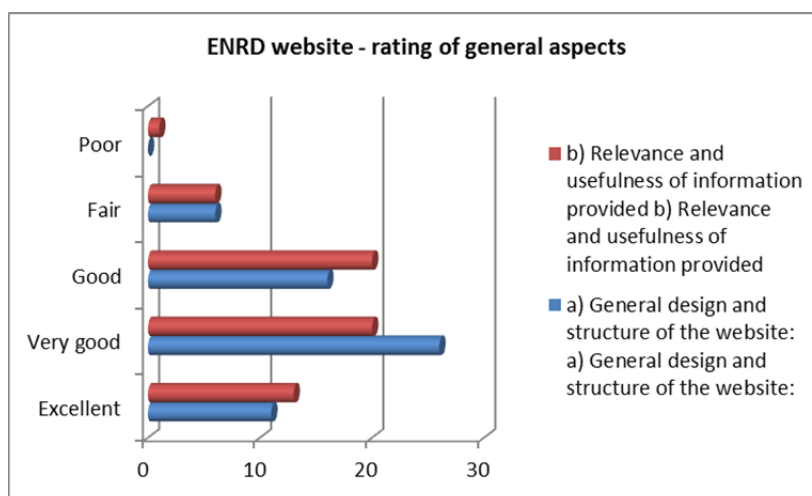

4 How often do you access the ENRD website?

44 out of 60 respondents access the ENRD website at least once a month - 21 out of these at least 5 times a month. 16 respondents (26.7%) access the website less than once a month.

5 How would you rate the ENRD website on the following aspects?

- a) General design and structure of the website: **53 out of 59 respondents rate the design and structure of the website "good", "very good", or "excellent"**.
- b) Relevance and usefulness of information provided: **53 out of 60 respondents rate the relevance and usefulness of information "good", "very good", or "excellent"**.

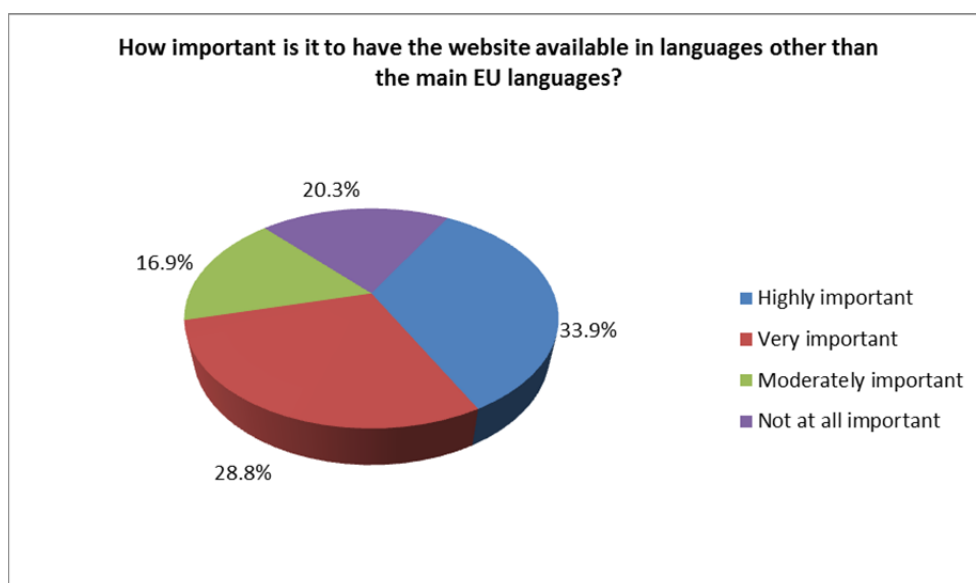

6 What is it about the ENRD website that you would most like to see improved?

17 responses were received for this question. Some answers that express further needs for development include:

- "News on the top – I have to scroll down for the news."
- "RDP database is a bit slow. The website is very, very good. Very useful and interesting."
- "Quicker update of outcomes after NRN, Lsc and CC meetings."
- "More pictures, more living, more modern, more integration of new tools as "storify"."

Some other respondents expressed the need for searchable database of projects which indicates they are not frequent users or they are not aware of the location of the project database or the cooperation offers on the website. Equally, it can indicate that cooperation offers need to be more emphasised on the intro page of the website.

7 How important is it to have the website available in **languages other than the main EU languages**?

59 respondents answered this question. For 62.7% of them it is either **very or highly important** to have the website available in languages **other than the main EU languages**.

8 How useful is **the "light" version of the website** (e.g. BG, CS, NL, FI, EL, HU, PT, RO) which provides a selection of materials from the ENRD website?

How useful is the "light" version of the website (e.g. BG, CS, NL, FI, EL, HU, PT, RO) which provides a selection of materials from the ENRD website?

72.9% of the 59 respondents find the "light" version moderately or not at all useful or are not aware of it at all.

9 Do you find the **social book-marking function** (i.e. Share via Facebook, Twitter, etc.) available on the ENRD website useful?

Do you find the social book-marking function (i.e. Share via Facebook, Twitter, etc.) available on the ENRD website useful?

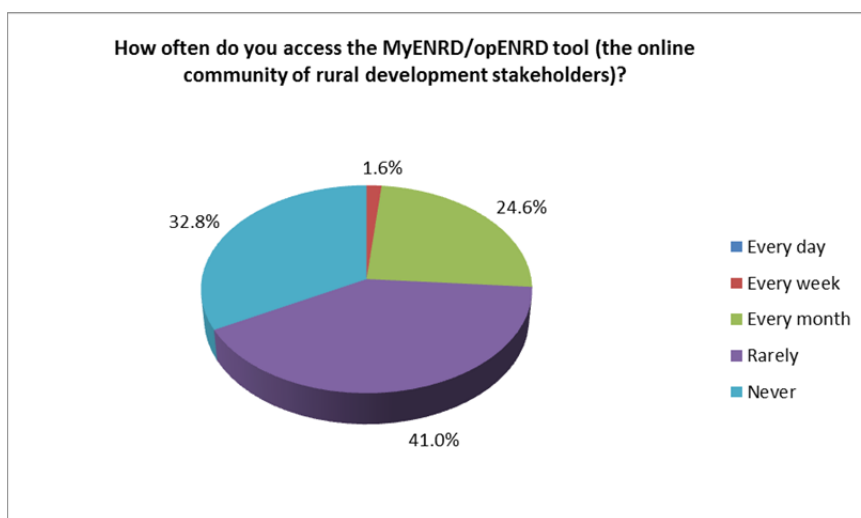

About half of the 61 respondents (49.2%) are either not aware of, do not find social book-marking useful at all, or find it only slightly useful. **Only 9.8% of respondents find the function highly useful.**

10 Does your organisation use social media?

51.7% (31 out of 60) respondents' organisations use social media.

11 How often do you **access the MyENRD/opENRD tool** (the online community of rural development stakeholders)? If never, please explain why.

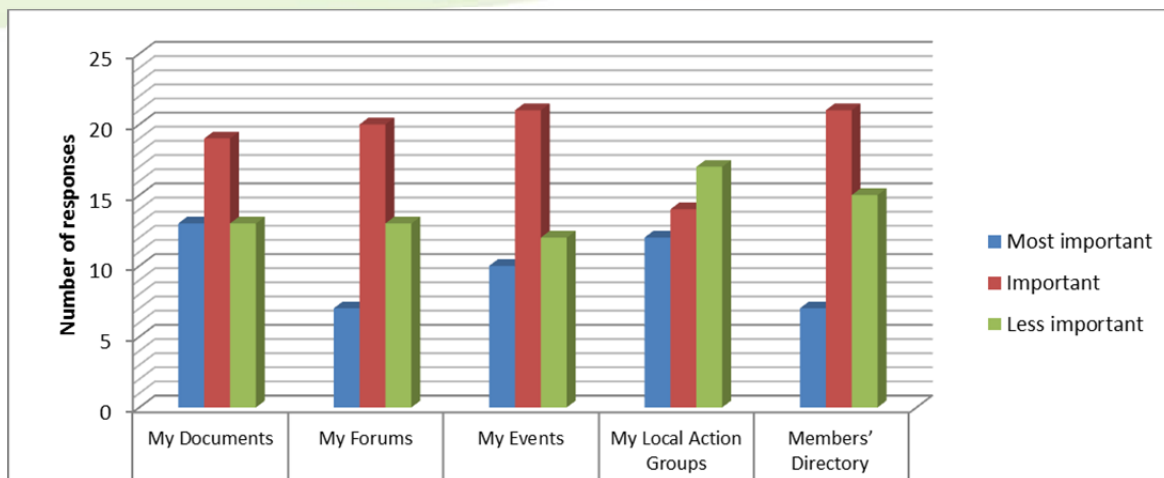

73.8% of the responses (45 out of 61) "never" or only "rarely" access MyENRD/opENRD.

The responses (14 respondents have never accessed the MyENRD/opENRD) for the 2nd part of the question relate to the user's online habits ("I rarely use online communities.") or the lack of awareness of the existence of the tool or lack of "membership" prior to the publications of the questionnaire.

One response related to the lack of instructions or guidance, according to one respondent "It's not very handy in my opinion."

12 Which **sections of My ENRD/opENRD** would you consider as **most useful** for your everyday work?

40-45 responses were counted depending on section. For all of the My ENRD/opENRD sections listed (My Documents, My Forums, My Events, My Local Action Groups, Members' Directory) the "most important" and "important" responses represent >60% of the total number of responses with **MyEvents ranking no.1.** with 72%.

13 Please mention any additional suggestions you may have to improve My ENRD/opENRD:

4 responses were received for this question, 3 of these have included concrete suggestions.

1. My Local Action Groups section – more information needed
2. Relevant news
3. To make forums more friendly.

14 Which ENRD publications would you consider as most useful for your everyday work?

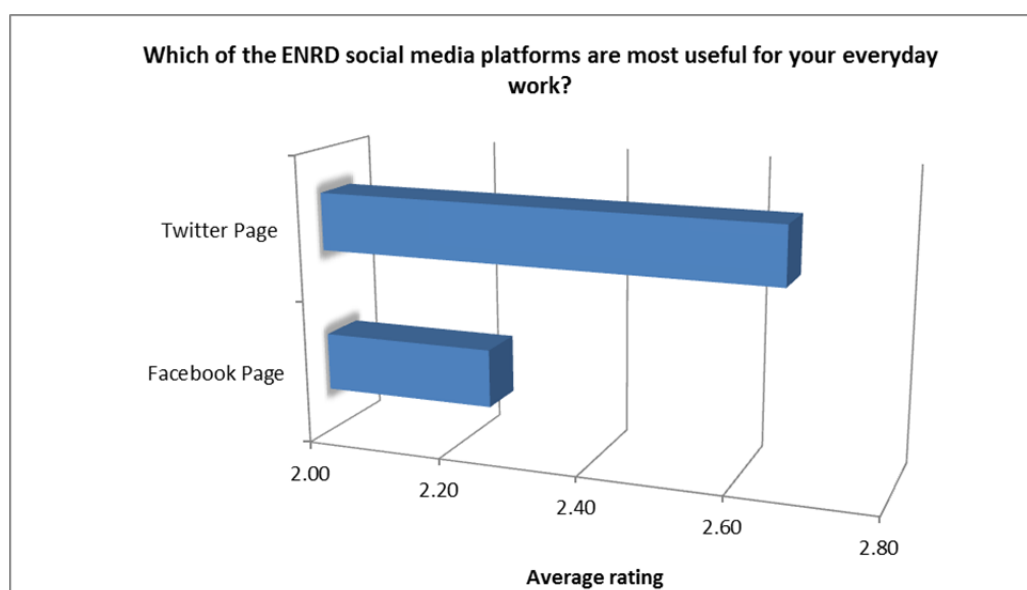

50-56 responses (depending on the specific communication tool). For all of the ENRD publications listed (EU RR, ENRD Magazine, Rural Newsflash, EAFRD Project Brochure, Thematic Publications) the "most important" and "important" responses represented >60% of the total number of responses for the specific publication. **In a ranking order in terms of the ratio of "most important" and "important" responses /**

total the list would be the following: EU RR (91%), ENRD Magazine (90.9%), Thematic Publications (87.2%), Rural Newsflash (76.9%), EAFRD Project Brochure (64%).

15 Which of the ENRD social media platforms are most useful for your everyday work?

50 responses (Twitter), 53 responses (Facebook). **Out of the 53 Facebook responses given 25 considered it important or most important** and 28 less important. Out of the 50 Twitter responses 38 considered it less important.

16 For what purposes do you usually use the ENRD Infoline?

This was a multiple choice question with more than one option possible. 37 respondents answered this question. The top options were "To disseminate or request information about events" (56.8%) and "To get clarifications about EU legislation" (54.1%). 13 respondents opted for the "other" response and their answers were the following:

Number	Other (please specify)
1	typical use of the infoline
2	don't use
3	seek employment opportunities
4	/
5	do not use it
6	to get informations in ENRD and the French Rural Network
7	Until now: no use at all.
8	I do not use
9	not really aware of the ENRD Infoline
10	Developing Strategies and programming rural development schemes

Number	Other (please specify)
11	To find grant money
12	Searching of partners and ideas
13	I do not use it as I don't know if it's open to no members

17 *What is the main benefit for your organisation from the ENRD's communication tools?*

30 respondents answered this question. The most frequently cited **benefits** of the ENRD Communication Tools were: **access to RD information, better understanding of EU RD Policy, building networks and contacts.**

18 *What single improvement to ENRD communication tools would be most useful to you and/or your organisation?*

24 responses have been received for this question. Some responses suggested that the information provided could be summarised in shorter paragraphs instead of long articles and documents, while another respondent expressed the need for more considered, more in-depth articles in addition to the presentation of projects and delivery schemes.

One interesting response focused the attention on the user "Improvement should be done maybe on behalf of the user. Many infos are available and we don't spend enough time to check it.". A number of respondents emphasised the need for translating the information.

One respondent mentioned the "rigidity" of the project partner search tool.

19 *Do you have any general or question-specific (please specify which question your comment relates to) comments arising from the questionnaire?*

15 responses have been received for this question. Out of these 2 included concrete recommendations. One of these related to avoiding the lack of continuity of linkages between ENRD and the national networks due to the transition between two programming periods. Another expressed the need to know the content of the magazines and the work programme and main topics in advance.

Number	Response Date	Response Text
1	Feb 7, 2014 12:33 PM	To inform us (all, connected with it) the usage and the benefits of all the aforementioned tools.
2	Feb 3, 2014 10:02 AM	no general suggestion > it depends on the practical benefits
3	Jan 31, 2014 8:55 AM	we do not have any suggestions
4	Jan 31, 2014 4:00 AM	don't know yet

Number	Response Date	Response Text
5	Jan 30, 2014 2:39 PM	that all videos etc were available in every language

8	Dec 22, 2013 5:46 PM	e-mail
9	Dec 20, 2013 3:02 PM	na
10	Dec 20, 2013 8:39 AM	Maybe to clarify sometimes the targets of event or meetings.
11	Dec 19, 2013 4:42 PM	I think all the documents are interesting but too long. The information could be resumed in shorter paragraphs. I'd prefer very short thematic documents like 5 or 10 sheets.
12	Dec 19, 2013 1:45 PM	If you want a more widespread use, also in the member states: translate your information. It will be better understood.
13	Dec 18, 2013 12:54 PM	More areas of the website available in PT.
14	Dec 18, 2013 11:18 AM	Writeups on projects and delivery of schemes are always extremely positive 'good news stories' which are nice to read but of very little value except for PR. A more reflective, considered approach to articles and features would be of more benefit. In addition, publications are over produced, over glossy and arrive months after the publication date.
15	Dec 18, 2013 10:46 AM	We still are not so busy with social media, but that's special for us
16	Dec 18, 2013 9:45 AM	More of a networked approach (sharing great things relevant to EU rural development) rather than communications focused on ENRD activities.
17	Dec 18, 2013 8:44 AM	leader tool
18	Dec 18, 2013 7:29 AM	Improvement should be done maybe on behalf of the user. Many infos are available and we don't spend enough time to check it.
19	Dec 18, 2013 7:21 AM	-
20	Dec 18, 2013 7:17 AM	Portal.
21	Dec 17, 2013 6:00 PM	The project partner searching tool is a bit rigid one.
22	Dec 17, 2013 4:08 PM	To avoid multiplication of different emails and information from PCE Team. For example, this e-mail "Video" and about youth videos competition.
23	Dec 17, 2013 4:06 PM	You should open front-office networks in marginal areas of UE in order to better promote your activities
24	Dec 17, 2013 12:25 PM	Blabla TEST
