

European Network for
Rural Development

Potential contribution of ENRD – CP to EU Network self-assessment

ENRD Contact Point
Brussels, 19 October 2015

Outline

- ❖ Approach to ENRD Contact Point self-assessment

- ❖ ENRD Contact Point self-assessment framework
 - *ENRD CP intervention logic*
 - *ENRD CP self-assessment system*

Approach to the ENRD Contact Point self-assessment

- The ENRD CP self-assessment is an internal exercise carried out by the Contact Point to improve its activities and tools.
- It fits into the strategic framework for EU Rural Networks → it can contribute to the overall work on the EU Network self-assessment (e.g. provision of data/results collected by the ENRD CP).

ENRD Contact Point self-assessment framework

The self-assessment framework is composed of:

- **ENRD CP intervention logic:** The IL illustrates the logical links between the different tools applied by the ENRD CP and the EU RN Specific Objectives.
- ENRD CP self-assessment system: The system put in place that enable to draw lessons to improve the tools applied
 - Questions (Results level)
 - Judgement criteria (Results level)
 - Indicators (Output & Result indicators)

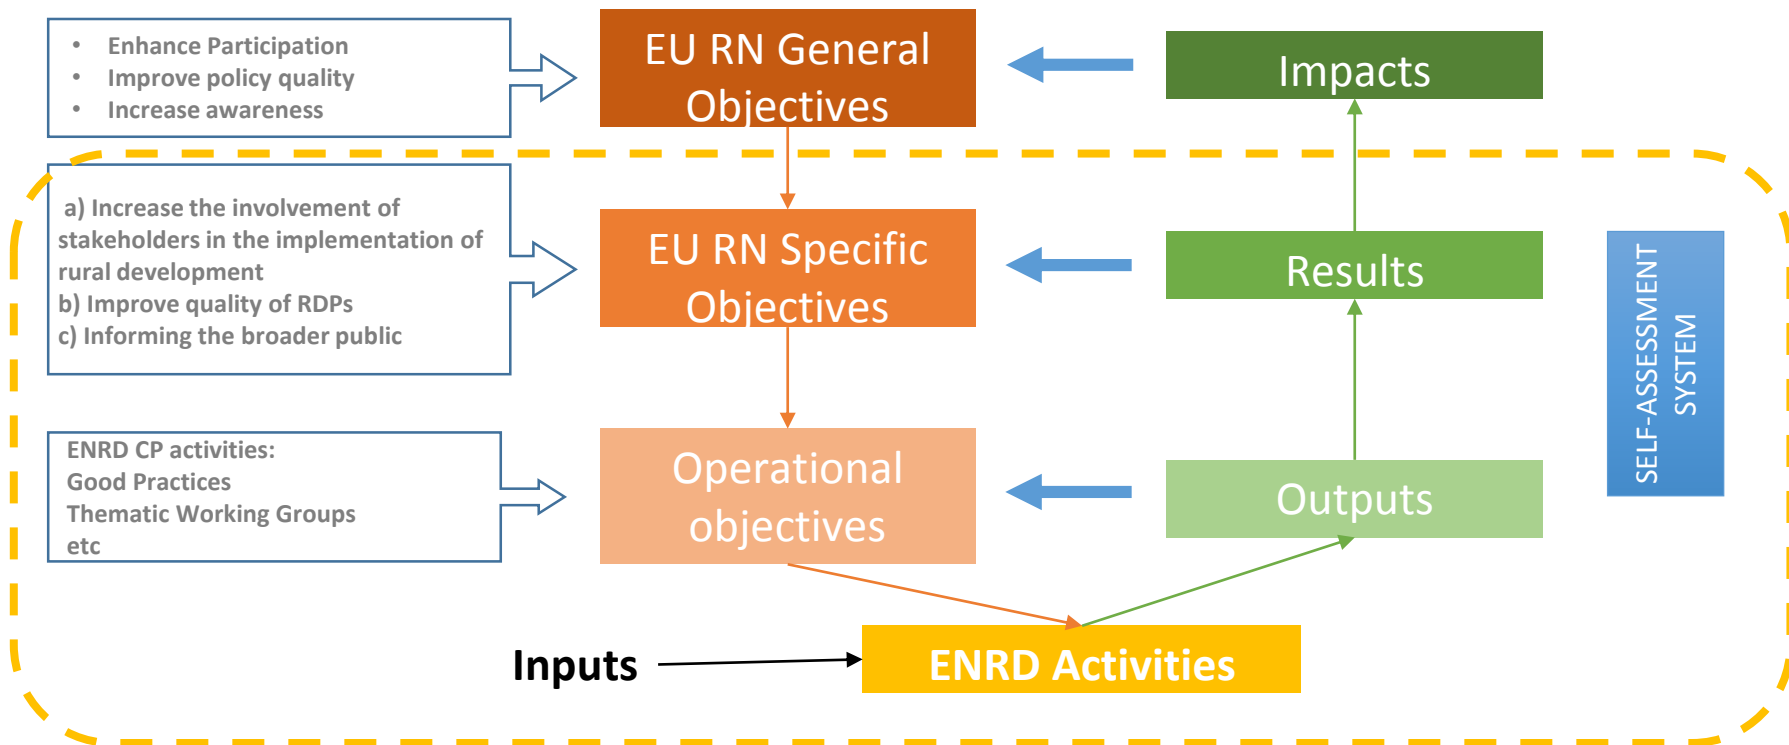

ENRD Contact Point self-assessment framework

The self-assessment framework is composed of:

- ENRD CP intervention logic: The IL illustrates the logical links between the different tools applied by the ENRD CP and the EU RN Specific Objectives.
- **ENRD CP self-assessment system: The system put in place that enable to draw lessons to improve the tools applied**
 - Questions (Results level)
 - Judgement criteria (Results level)
 - Indicators (Output & Result indicators)

Approach to the ENRD Contact Point self-assessment

ENRD CP SELF-ASSESSMENT
FRAMEWORK

ENRD Contact Point self-assessment system

ENRD CP output indicators (Examples)

ENRD CP Tools	Output indicators
Good Practice	Number of GP identified (per theme) Number of GP fiches developed (per theme) ...
Events	Number of events organised (by type/ by theme) (OI24.3 & 25.1*) Number of participants* at events (by type of organisation, by MS) (OI26*) ...

**Similar to common NRN output indicators*

ENRD Contact Point self-assessment system

Result indicators: Defined at the level EU RN Specific Objectives and aimed at capturing the results achieved by the implemented tools

ENRD Specific Objectives (as per EU 1305/2013)	SELF ASSESSMENT FRAMEWORK			
	Intervention (set of ERND CP tools)	Self-assessment Questions	Self-assessment criteria (from Operational Objectives)	Potential Result indicators (examples)
<p>Improve the quality of RDP implementation (Art 52.2.b)</p>	<ul style="list-style-type: none"> RD analysis Thematic Working Groups Good Practices Events Networking Transnational Cooperation 	<ul style="list-style-type: none"> To what extent have the ENRD activities of contributed to improve the quality of RDPs implementation? 	<ul style="list-style-type: none"> Relevant stakeholders demonstrated a common understanding of the real opportunities and needs for improving the RDPs. Approaches for RDP improvements are identified, analysed and shared among RD stakeholders (including managers) Methods and tools for improving the RDP quality are exchanged and transferred among stakeholders groups 	<ul style="list-style-type: none"> *Usefulness and relevance of ENRD activities (by type of relevant activities) for: <ul style="list-style-type: none"> Increasing awareness among RD stakeholders on the opportunities and needs for improving RDPs Sharing useful approaches for RDP improvements Fostering exchange of information among RD stakeholders No of actions implemented by RD stakeholders to improve RDPs implementation triggered by information provided by the ENRD

** Work in progress*
