Brief summary of the project idea (max 800 characters)

<p>This cooperation proposals deals with logistics cooperation and air traffic, both cargo and people. The Chinese are interested and motivated to build their logistics cooperation network in Europe more effective and covering. In spite of Finland's peripheral location in the EU, we have a gateway position (from the Schengen area) with air traffic to and from China. The Finnish air company Finnair is among the biggest foreign operators in the Chinese market. For example Finnish rural tourism has been benefiting from this in many ways.</p>
