

NRN Operation

National Rural Networks have to operate according to specific objectives and tasks set by the Rural Development Regulation. Experience accumulated in this regard during the **2007-2013 programming** period has been assessed in the [‘III. Managing the Network’](#) chapter of the ‘NRN Guidebook – Networks in transition’. This chapter synthesises experience with regard to the seven mandatory tasks of the NRNs.

NRNs are carrying out a number of activities/ tasks in order to achieve the four (mandatory) overall objectives. Resources developed and/or shared by the ENRD Contact Point with regard to the seven mandatory tasks are listed under the ‘NRN Tasks’ section of the [‘NRN Toolkit’](#) page.
