The European Network for Rural Development (ENRD) contributes to the efficient implementation of Rural Development Programmes (RDPs) throughout the European Union (EU).

Each Member State has established a National Rural Network (NRN), which brings together the organisations and administrations involved in rural development.

At EU level, the ENRD ensures the networking of these NRNs, national administrations and European organisations: <http://enrd.ec.europa.eu/en/en-rd-presentation.cfm>

Information exchange is an important aspect of the NRN and ENRD operations.

ACKNOWLEDGEMENT

We would like to thank colleagues of the national and regional rural networks for their support and cooperation during the 2007-2013 programming period. The examples, tools, methods and 'face-to-face' discussions (networking!) with rural network members inspired us to develop the NRN Guidebook. Also thank you for colleagues in DG AGRI for their support and feedback on the Guidebook.
