OUTCOME: Roadmap for targeted data management

What are the open questions in relation to context indicators?

...regarding the indicators themselves:

Focus of **day 2**

- Which are the context indicators for the period 2014-2020?
- What are the relevant context indicators which should be used?
- When will the final list become available?

...regarding their purpose:

Focus of **day 1**

- What is the purpose of developing common context indicators?
- Experiences from the current period?

....regarding their application:

- How to use context indicators in the SWOT analysis and the ex ante evaluation?
- How to use context indicators in designing the evaluation?
- Do MS have the possibility to choose context indicators from the list proposed in the Guidelines?
- Please, clarify how should intervention logic be proposed, described in the RDP?
- Why do we have to update context indicators? How often?

Agenda

- **Day 1: 13:00-18:00**
 - **Welcome**
 - **The role of context indicators in programme design and evaluation** (Expert view ↔ DG Agriculture)
