

Workshop 2: Wider implications of semi-subsistence farming
for society and the environment

Semi-subsistence farming in the EU: Current situation and future prospects

Workshop 2

*Wider implications of semi-subsistence farming for society and the
environment*

Connecting Rural Europe

Workshop 2: Wider implications of semi-subsistence farming for society and the environment

Discussion issues

- What is the role of SSF in the provision of public goods?
- Are SSF sufficiently recognized and remunerated for the public goods they provide?
- How can SSF be further encouraged in the provision of environmental public goods?
- How can SSF be further encouraged in their role of maintaining and strengthening rural communities?
