Experiences of the LEADER/CLLD approach

- LEADER I – two of the very first areas to adopt this mechanism
- LEADER II – 4 LAG's
- Objective One – no LEADER+ but adopted principles across programme delivery

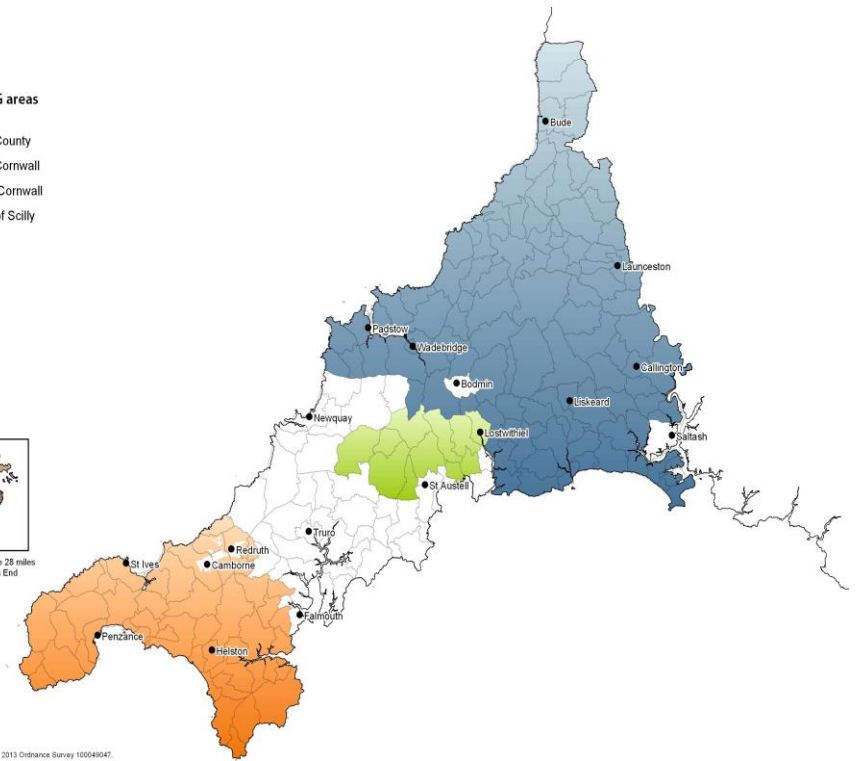

2007 – 2013 delivery

- 4 LAGs, not 100% coverage
- EAFRD only
- Aligned to Convergence ESF, ERDF and wider RD funding
- FLAG delivers EMFF

Non PBR work/Economy/13_003

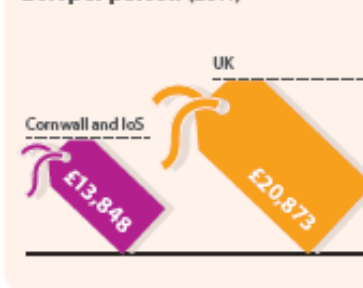

2014 to 2020 delivery

- Economic challenges remain
- GDP remains below 75% of the EU average so Less Developed Area Status confirmed
- Local Enterprise Partnership in place to set overall strategy

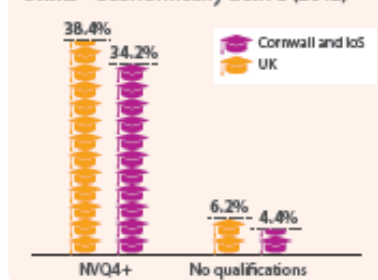

Our economic challenges and barriers to growth

Cornwall and the Isles of Scilly has a GDP which stands at 72%¹ of the EU average. Despite impressive growth rates and a significant pre-recession improvement (peaking at 78% in 2006), structural weaknesses remain within our economy. The main economic characteristics of the region are set out below;

GVA per person (2011)

Skills - economically active (2012)

Innovation - R&D spend / GDP (2009)

No. of people at risk of poverty (and not on benefits) (2012)

Average income (2012)

% people economically inactive (16-24)

2014 to 2020 delivery (proposed)

- LEP has decided to deploy 5% of ESF and ERDF budget via the CLLD/LEADER approach (circa €29m)
- EAFRD will be accessed via LEADER
- Will sit as part of wider programme delivery mechanisms

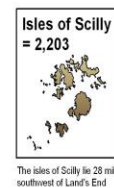

2014 – 2020 delivery (proposed)

- Building on current structures
- 5 LAGs – 100% coverage
- Rural/Urban coverage
- EAFRD, ESF and ERDF in same LAGs
- FLAG continues to deliver EMFF
