E-ARIB

- E-services and document management system
- Information centre between ARIB, applicants and LAGs
- Main goal - quick and easy e-services for clients
- E-ARIB was created to facilitate the financing of projects; to make the system faster, easier, more transparent and reduce paper documents.
- Services:
 - submitting applications (investment measures 114, 112, 123 and 411, 413 and 421)
 - submitting payment claims (all investment measures)
 - submitting additional documents (amendment to declaration; respond to inquiries)
 - check registry data, to see different measures payments information
- The first application via e-ARIB: Aug 2011, first LEADER application Feb 2012

E-ARIB (2)

- App. 15,796 customers (2013 Sept), 3000 customers have been added this year
- Total users (people who have some form of force powers) have a total of 18 987
- Total ARIB's clients- app 50 000
- Over the last year (Sept 2012 – Sept 2013) through e-ARIB were submitted 97 076 documents
- Why should use e-ARIB? no more applications on paper - the whole process will be able to be done much more quickly and conveniently over the Internet.
