About the ENRD

The European Network for Rural Development (ENRD) serves as a hub for exchange of information on how Rural Development policy, programmes, projects and other initiatives are working in practice and how they can be improved to achieve more.

The ENRD is not a membership organisation. Its work aims to engage and reach anyone with an interest in and commitment to rural development in Europe.

The ENRD supports the effective implementation of EU Member States' Rural Development Programmes (RDPs) by generating and sharing knowledge, as well as through facilitating information exchange and cooperation across rural Europe. These activities are facilitated by two support units: the ENRD Contact Point and the European Evaluation Helpdesk for Rural Development.

Explore the following sections to find out more about how the ENRD operates, its governance structures and support units.
