Évaluation du Programme national de gestion des risques et d'assistance technique et en particulier de l'assurance récolte
Rapport d'évaluation- Decid & Risk - juin 2019 Page 1

[Mid-Term Evaluation: Summary on Risk Management and Crop Insurance](#) [5]

The evaluation covers all the PNGRAT measures and their combined effects: sub-measure 17.1 (crop, animal and plant insurance); sub-measure 17.2 (mutual funds); technical assistance. The analysis relates to the implementation of the program within its scope of metropolitan application (measures

not deployed in the French overseas departments), from its start in 2014 until the end of 2017.

Rapport de l'évaluation

[Technical and Financial Feasibility study of the Agro-Environmental and Climatic Measures \(AECM\) of the Rural Development Program \(RDP\) 2014-2020 of Mayotte](#) [7]

In 2017, the formative thematic evaluation of the AECMs was conducted. It aimed to estimate the relevance and applicability of the RDP in Mayotte.

The results of the evaluation shed light on the Managing Authorities choices concerning the modifications of Measure 10 to be submitted to the European Commission in order to envisage the opening and the access of the AECMs to farmers of the territory in 2018.

The study evaluates both the overall mechanism of the AECMs and the operational character of the AECMs in Mayotte on an individual basis.
