

## Portale sulla bioeconomia rurale

Il portale, che rientra nell'ambito delle attività del Gruppo tematico della RESR "[Incentivare lo sviluppo della bioeconomia](#) [7]", illustra le sfide e le opportunità della bioeconomia nei territori rurali. Utilizzate i riquadri sottostanti per esplorarne i contenuti e condividere la vostra esperienza.

Nelle zone rurali, una bioeconomia innovativa ed efficiente sotto il profilo delle risorse può offrire sbocchi economici a produttori e aziende, preservando al contempo la biodiversità e riducendo le emissioni di gas a effetto serra.

**“La bioeconomia comprende quei settori dell’economia che utilizzano risorse biologiche rinnovabili di terra e mare, quali colture, foreste, pesci, animali e microorganismi, per produrre cibo, materiali ed energia”.**
