

LEADER Toolkit

The first version of the LEADER Toolkit was developed by the ENRD Contact Point during the 2007-2013 programming period. The LEADER Toolkit is addressed to all actors implementing the LEADER approach at Managing Authority as well as the local level. It can also be useful for Managing Authorities and local actors implementing CLLD in other EU Funds. The Toolkit is both a guide book for a beginner and a reference source and check list for those who are more advanced. The Toolkit as presented here summarises and updates materials from the earlier version to be 'fit for purpose' for the 2014-2020 programming period. It is presented in a concise format organised into four main sections, these are:
