

## Sommet de l'innovation agricole

Le Sommet de l'innovation agricole 2017 ([AIS 2017](#) [1]) a réuni plus de 500 participants à Oeiras (Portugal). Ceux-ci ont discuté des manières dont les zones rurales pourraient davantage tirer profit des opportunités d'innovation actuelles et émergentes. Les participants incluaient des agriculteurs, des conseillers, des chercheurs, des ONG, des autorités de gestion, des réseaux ruraux nationaux (RRN), des groupes d'action locale (GAL), des entreprises rurales et des start-up.

Les principaux objectifs de l'événement étaient de :

- promouvoir les échanges entre les initiatives multi-acteurs innovantes ;
- sensibiliser aux opportunités de l'innovation et de la numérisation pour l'agriculture ;
- alimenter les politiques d'innovation de l'UE dans le domaine agricole et rural après 2020.

L'événement a été conçu pour capitaliser sur le Point 7 de la [déclaration de Cork 2.0](#) [2] : « Stimuler la connaissance et l'innovation ». Il s'agit d'une initiative commune d'un consortium portugais, du gouvernement portugais et des réseaux REDR et [PEI-AGRI](#) [3].

Le Point de contact du REDR a participé à l'AIS 2017. Il a facilité les discussions en atelier sur les sujets suivants :

**Accroître les opportunités numériques pour les entreprises et communautés rurales** (pour en savoir plus, cliquez [ici](#) [4])
