

## Taller de la REDR sobre el «Relevo generacional a través del desarrollo rural»

Este taller, que fue organizado conjuntamente por el punto de contacto de la REDR y el Consejo Europeo de Jóvenes Agricultores ([CEJA](#) [1]), se propuso analizar las diferentes medidas de los programas de desarrollo rural que podrían ayudar al relevo generacional.

Durante el taller se debatieron los retos a los que se enfrentan los agricultores jóvenes y los nuevos agricultores, como el acceso a la tierra, la financiación, la formación y el conocimiento. El taller facilitó la cooperación y el intercambio entre representantes de la unidad de apoyo a la red y agricultores jóvenes y nuevos agricultores, y se tuvieron en consideración ejemplos de la UE y los resultados tanto de [Cork 2.0](#) [2] como del grupo temático de la AEI-AGRI sobre «[Nuevos agentes en el sector agrario](#) [3]».
