

Generational renewal and the CAP: have your say!

How would you assess the impact of the Common Agricultural Policy (CAP) on generational renewal, local development and jobs in rural areas? Fill in this short [online survey](#) [1] by 26 November 2018.

The survey covers generational renewal in both agriculture and rural areas, looking at the various CAP Measures that can be used by EU Member States and regions to support it. The survey has been commissioned by the European Commission's [DG AGRI](#) [2] and is run by the Countryside and Community Research Institute ([CCRI](#) [3]).
