

Good practices from Poland

Browse through a [collection](#) [1] of good practices with an impact on the development of rural areas, carried out under the operational plan of the [Polish Rural Network](#) [2] in 2017-2018. The publication is available in English.

The selected examples include dissemination of agricultural innovation, food production, short supply chains, organic production, reduction of environmental degradation, rural entrepreneurship, and promotion of the countryside.
