

A new Rural Bioeconomy Portal

The ENRD Contact Point launched on 6 November 2018 a new online [Rural Bioeconomy Portal](#) [1] collecting resources such as relevant documents, links to tools, projects and organisations related to bioeconomy.

The portal is part of the ENRD thematic work on '[Mainstreaming the Bioeconomy](#) [2]' and focuses on the challenges and opportunities for bioeconomy in European rural areas. It is freely accessible and allows users to suggest further contents. The portal will soon be available in French, German, Italian, Polish and Spanish.
