A toolkit for rural networks

Browse through our interactive [online toolkit](https://enrd.ec.europa.eu/networking/nrn-toolkit_en) [1] containing a range of materials – such as good practices, publications and various resources from ENRD events – intended to assist National Rural Network (NRN) support units in achieving their key tasks and objectives.

The toolkit is searchable by NRN objective or task, as well as by operational aspects such as NRN set-up, functioning, and self-assessment.

Have you got a resource that you would like to share with rural networks across Europe? Drop us a line directly through the toolkit.
