Participatory Guarantee Systems - Dialogue between consumers and farmers for sustainable short supply chains

[1]

Keywords:

Cooperation

Countries:

The Netherlands

Developing a Participatory Guarantee System (PGS) in the Netherlands as an alternative to formal certification for small producers operating in short supply chains.

Farmers measure water - Netherlands [2]

Keywords:

Agriculture, Cooperation, Digitisation, Rural Inspiration Awards: nominees, Water management

Countries:

The Netherlands

This project combined state-of-the-art sensing techniques and models with a participatory monitoring process with farmers and water authorities to create a common understanding of the main local challenges and possible solutions to enhance water quality. In addition, the process empowered individual farmers to become equal partners with water authorities as they gained knowledge and access to data. Problems with water management differ between regions, but the process of jointly collecting, learning from and acting on data can be applied across regions.

MAVAS - Biosensor development for the detection of mastitis [3]

Keywords:

Animal husbandry, Animal welfare, Cooperation, Innovation

Countries:

Estonia

An EIP-AGRI Operational Group is developing a biosensor that will quickly identify mastitis infections

in dairy cows and thus improve the efficiency of the sector.

TARK LAUT - Smart cattle housing [4]

Keywords:

Animal husbandry, Competitiveness, Cooperation, Energy efficiency, Entrepreneurship, Innovation, Renewable energy

Countries:

Estonia

A cooperative venture to develop a new generation energy efficient, thermo-regulated, shed for cattle housing.

The Water Holding project of Walcheren [5]

Keywords:

Agriculture, Climate change adaptation, Competitiveness, Cooperation, Innovation, Irrigation, Natural resources, Water management

Countries:

The Netherlands

Setting up collaborative water system measures and a governance approach to increase self-sufficiency of freshwater availability for agriculture.

Feed Back Farm - using insects for adding value to organic waste streams [6]

Keywords:

Agriculture, Bioeconomy, Competitiveness, Cooperation, Environmental sustainability, Innovation

Countries:

The Netherlands

An EIP-AGRI Operational Group project on the use of insects for adding value to organic residues from agriculture.

Integrated Pest Control System using Aerodynamic-Spectrometric Methods [7]

Keywords:

Agriculture, Cooperation, Innovation, Soil management

Countries:

Lithuania

Developing an integrated identification and control system that enables the detection of pests in fields and gardens and determines the optimal time to apply protective measures.

Improving the soil's fertility using new generation microelements [8]

Keywords:

Agriculture, Competitiveness, Cooperation, Innovation

Countries:

Lithuania

An EIP-AGRI operational group on improving the soil's quality and structure, using new generation microelements and microorganisms.

Brickz - Natural Soil Improver [9]

Keywords:

Agriculture, Bioeconomy, Competitiveness, Cooperation, Entrepreneurship, Innovation, Rural Inspiration Awards: nominees

Countries:

The Netherlands

Using biomass residues to produce a fertiliser, which is then used to grow trees, and will, over time, improve soil quality, has led to significant financial savings for nature conservation organisations and

tree nurseries.

Social farming and product innovation [10]

Keywords:

Added value, Cooperation, Product quality, Social inclusion, Social services

Countries:

The Netherlands

A farm employing people with special needs set up a process line and an experimental kitchen, where non-commercial agricultural produce can be turned into new products.
