[The Linen Project in the Netherlands](#) [1]

Keywords:

Cooperation, Innovation, Networking, Stakeholder involvement, Sustainability

Countries:

The Netherlands

CAP funds help identify opportunities for improving localised linen production.

Plasma Activated Water for Sustainable Agriculture [2]

Keywords:

Agriculture, Competitiveness, Cooperation, Innovation, Sustainability

Countries:

The Netherlands

An EIP Operational Group worked on upscaling the production of Plasma Activated Water (PAW) and on demonstrating its effectiveness and cost efficiency as a sustainable nitrogen fertiliser.

Baltic Stewardship - collaboration for a healthy Baltic Sea [3]

Keywords:

Agriculture, Cooperation, Environmental protection, Natural resources, Water management

Countries:

Sweden

A CAP-funded cooperation project to strengthen the competitiveness of agricultural companies that minimise nutrient leakage, thereby contributing to the long-term goal of minimising agricultural nutrient leakage in the Baltic Sea by 2045.

A marketing strategy to strengthen the brand of a short supply chain for pig meat [4]

Keywords:

Competitiveness, Cooperation, Market development, Producer groups, Product quality, Short supply chains & local markets

Countries:

The Netherlands

A pig meat producing short supply chain developed a marketing strategy to strengthen its brand and increase demand for its high-quality products.

Farmers measure water - Netherlands [5]

Keywords:

Agriculture, Cooperation, Digitisation, Rural Inspiration Awards: nominees, Water management

Countries:

The Netherlands

This project combined state-of-the-art sensing techniques and models with a participatory monitoring process with farmers and water authorities to create a common understanding of the main local challenges and possible solutions to enhance water quality. In addition, the process empowered individual farmers to become equal partners with water authorities as they gained knowledge and access to data. Problems with water management differ between regions, but the process of jointly collecting, learning from and acting on data can be applied across regions.

BeeScanning - an app for protecting bee colonies [6]

Keywords:

Agriculture, Cooperation, Environmental sustainability, Innovation

Countries:

Sweden

The BeeScanning app combines the use of artificial intelligence and smartphones, enabling beekeepers to easily detect Varroa mites and reduce the risk of death in their bee communities.

The Water Holding project of Walcheren [7]

Keywords:

Agriculture, Climate change adaptation, Competitiveness, Cooperation, Innovation, Irrigation, Natural resources, Water management

Countries:

The Netherlands

Setting up collaborative water system measures and a governance approach to increase self-sufficiency of freshwater availability for agriculture.

Feed Back Farm - using insects for adding value to organic waste streams [8]

Keywords:

Agriculture, Bioeconomy, Competitiveness, Cooperation, Environmental sustainability, Innovation

Countries:

The Netherlands

An EIP-AGRI Operational Group project on the use of insects for adding value to organic residues from agriculture.

Brickz - Natural Soil Improver [9]

Keywords:

Agriculture, Bioeconomy, Competitiveness, Cooperation, Entrepreneurship, Innovation, Rural Inspiration Awards: nominees

Countries:

The Netherlands

Using biomass residues to produce a fertiliser, which is then used to grow trees, and will, over time, improve soil quality, has led to significant financial savings for nature conservation organisations and tree nurseries.
