Ce numéro de la Revue rurale de l'UE se penche sur des communautés rurales de toute l'Europe qui ont entrepris de chercher des solutions pratiques à leurs difficultés et de saisir de nouvelles opportunités.

**[Revue rurale de l'UE n° 25 - « Efficacité des ressources »](#)** [10]

Ce numéro de la Revue rurale de l'UE s'intéresse au défi posé par l'efficacité des ressources et examine

comment s'applique le concept du « consommer mieux avec moins » dans le domaine du développement rural. En mettant l'accent exclusivement sur la gestion de l'eau et des sols, il montre comment les zones rurales peuvent devenir plus efficaces en ressources.

Ce numéro présente un aperçu des pratiques rurales d'efficacité des ressources et explique comment utiliser au mieux la politique de développement rural de l'UE pour favoriser une meilleure gestion des ressources naturelles. Il présente aussi le programme LIFE de l'UE, dont les projets pilotes fournissent de nombreux exemples inspirants de pratiques durables qui peuvent être reproduits dans le secteur agricole et d'autres secteurs où opèrent les entreprises rurales.

Cette édition de la Revue rurale repose sur le travail thématique général du REDR consacré à l'« [Efficacité des ressources de l'économie rurale](#) [11] ».

## [Revue rurale de l'UE n° 24 - Réinventer les possibilités offertes aux entreprises rurales](#) [18]

Cette édition de la Revue rurale de l'UE étudie certaines des récentes réflexions et pratiques visant à aider l'entrepreneuriat rural à tirer parti des possibilités émergentes et potentielles pour développer de nouvelles formes efficaces d'entreprises rurales.

Sans chercher à éluder les nombreux défis auxquels sont confrontées les zones rurales de l'Europe, la Revue passe en revue les nouvelles possibilités qui émergent de domaines variés allant de la biotechnologie jusqu'à l'économie de l'expérience, en passant par les possibilités créées par les nouvelles technologies de l'information ou les demandes de consommation changeantes.

Enfin, elle étudie comment les programmes de développement rural peuvent être déployés de façon stratégique pour exploiter ces possibilités, en trouvant des façons plus intelligentes d'offrir des appuis efficaces aux entreprises et en réalisant des efforts ciblés afin de vaincre certains défis spécifiquement ruraux.

## [Revue rurale de l'UE n° 23 - Économie verte - Opportunités pour l'Europe rurale](#) [26]

Ce numéro de la Revue rurale de l'UE examine plusieurs façons dont la durabilité sociale et environnementale peut contribuer à la croissance économique dans les zones rurales d'Europe.

Il épingle les différentes opportunités qui s'offrent aux zones rurales pour opérer une transition vers une économie verte, notamment en évoluant vers une économie à faibles émissions de carbone et en adoptant une agriculture et une sylviculture plus durables. Il se penche aussi sur les aspects pratiques des projets d'économie verte et montre comment la coopération peut contribuer à la réalisation de meilleurs résultats.

Dans l'ensemble, la revue indique comment les programmes de développement rural (PDR) peuvent soutenir au mieux les efforts accomplis dans ces domaines.
