## [Rivista rurale dell'UE numero 24 - Ripensare le opportunità per le imprese rurali](#) <sup>[1]</sup>

Questo numero della Rivista rurale dell'UE analizza alcune delle ultime teorie e pratiche in materia di sostegno all'imprenditoria rurale per promuovere lo sviluppo di forme di attività innovative, sfruttando con successo le nuove opportunità emergenti e le potenzialità latenti nei territori rurali.

Senza ignorare le molteplici sfide delle zone rurali d'Europa, questo numero esamina gli sbocchi e le nuove opportunità che vanno emergendo in un'ampia gamma di settori: da quello delle biotecnologie all'economia delle esperienze, dalle moderne tecnologie dell'informazione alle nuove esigenze dei consumatori.

La pubblicazione, infine, esamina come utilizzare in modo strategico i Programmi di sviluppo rurale per ottimizzare queste opportunità, individuando soluzioni più intelligenti per un efficace sostegno alle imprese e concentrando gli sforzi in modo mirato per ovviare ad alcune criticità specifiche ai territori rurali.

## **[Rivista rurale dell'UE numero 22 - Filiere intelligenti e competitive per prodotti alimentari e bevande](#)** [9]

Questo numero della Rivista rurale dell'UE illustra possibili soluzioni per "migliorare la competitività dei produttori primari integrandoli meglio nella filiera agroalimentare", uno degli aspetti specifici della politica di sviluppo rurale dell'Unione europea.

La pubblicazione passa in rassegna una serie di strumenti per valorizzare le filiere, esplorando altresì i principali sbocchi commerciali per i produttori rurali in termini di estensione dei mercati rurali; migliore accesso ai mercati urbani; accesso agli appalti pubblici per le forniture di prodotti alimentari.

La rivista, inoltre, sottolinea l'importanza di attuare strategie mirate a sostenere filiere più intelligenti sfruttando collegamenti con il settore della ricerca e i Programmi di sviluppo rurale (PSR).

**[EU Rural Review 18 'Organic Farming'](#)** [16]

This issue highlights the value of the organic approach to agriculture and the rural economy, as well as its wider societal and environmental benefits. It further provides insight into the evolving European policy landscape - including a detailed profile of the European Commission's Action Plan on the Future of Organic Production in Europe - and the course it is setting for the future of the sector.

## [EU Rural Review 16 'Knowledge Transfer and Innovation in Rural Development Policy'](#) [23]

Innovation is at the heart of the Europe 2020 strategy, which aims to promote smart, sustainable and inclusive growth. Today, European farmers are faced with the dual challenges of having not only to produce more, but also to do so in a sustainable manner. The reform of the Common Agricultural Policy (CAP) sees innovation as a key driver of sustainable agriculture and rural development.
