[EAFRD Projects Brochure 'Bioeconomy'](#) [1]

This edition of the EAFRD Projects Brochure illustrates how the mainstreaming of the bioeconomy is being accelerated by Rural Development Programmes (RDPs) around Europe.

A sustainable bioeconomy, while it benefits everyone, has particular relevance for rural communities. The twelve projects featured in this Projects Brochure illustrate how RDPs are helping rural

communities seize the opportunities offered by the bioeconomy through the production of sustainable food and feed, innovative bio-based products, renewable energy, environmentally sustainable growth and awareness raising.

[Opuscolo dei progetti FEASR 'I giovani e il ricambio generazionale'](#) [3]

Questa edizione degli opuscoli dei progetti FEASR presenta dodici progetti che illustrano come la politica di sviluppo rurale contribuisce a migliorare l'attrattiva delle zone rurali per i giovani, così che possano viverci e lavorare, nel settore dell'agricoltura ma non solo.

I giovani delle zone rurali, e in particolare i giovani agricoltori, rafforzano la vitalità del mondo rurale e aprono la strada a catene di valore più solide e alla prosperità del mondo rurale. Il ricambio generazionale è una condizione essenziale per migliorare la competitività del settore agricolo sul più lungo periodo e per la produzione alimentare sostenibile in Europa.

[Collection and dissemination of project examples](#) [10]

This factsheet presents key findings about the experiences of Network Support Units (NSUs) in collecting and disseminating examples of projects supported through the European Agricultural Fund for Rural Development (EAFRD). The findings emerged from the analysis of information gathered through an online survey and the [ENRD Workshop on 'Project Examples and Good Practices'](#) [11].

[Opuscolo sui progetti finanziati dal FEASR “Innovazione sociale e digitale nei servizi rurali”](#) [22]

Questo opuscolo sui progetti finanziati dal FEASR illustra dodici iniziative di innovazione sociale e digitale partecipate che migliorano i servizi rurali in sei ambiti: centri polivalenti; sanità, istruzione; mobilità; energia; digitalizzazione locale.

Gli esempi mostrano come le comunità rurali possano talvolta rispondere più velocemente della politica alle sfide cui sono confrontate, avvalendosi di soluzioni finanziarie innovative, quali ad esempio gli investimenti del settore privato e il crowdfunding.

I Programmi di sviluppo rurale (PSR) possono fornire un sostegno complementare a queste comunità, in ogni fase del loro processo di trasformazione in ‘[villaggio intelligente](#)’ [23]: dall’idea iniziale sino alla completa realizzazione.

[Opuscolo sui progetti finanziati dal FEASR “Economie rurali efficienti sotto il profilo delle risorse”](#) [30]

Questo opuscolo analizza il contributo dei finanziamenti erogati nell’ambito dei Programmi di sviluppo rurale (PSR) cofinanziati dal FEASR per un uso sostenibile delle risorse naturali, in particolare acqua e suolo.

Il concetto di uso efficiente delle risorse si fonda sull’idea “fare di più con meno”. In questa ottica, i progetti presentati in questo volume evidenziano una serie di pratiche virtuose che generano un maggior valore economico e ambientale con minori input.

Il Fondo europeo agricolo per lo sviluppo rurale (FEASR) fornisce un prezioso sostegno alle economie rurali d’Europa, accelerando il passaggio verso un’agricoltura più sostenibile.
