[EAFRD Projects Brochure 'Bioeconomy'](#) [1]

This edition of the EAFRD Projects Brochure illustrates how the mainstreaming of the bioeconomy is being accelerated by Rural Development Programmes (RDPs) around Europe.

A sustainable bioeconomy, while it benefits everyone, has particular relevance for rural communities. The twelve projects featured in this Projects Brochure illustrate how RDPs are helping rural

communities seize the opportunities offered by the bioeconomy through the production of sustainable food and feed, innovative bio-based products, renewable energy, environmentally sustainable growth and awareness raising.

[EAFRD Projects Brochure 'Supporting Rural Business'](#) [3]

This edition of the EAFRD Projects Brochure explores how Rural Development Programme (RDP) funding – co-financed by the EAFRD – has been used not only to support individual rural businesses, but also to create the kind of enabling environment that allows businesses to prosper in rural areas.

Supporting rural business usually means providing strategic interventions that can increase the likelihood of successful, self-sustaining economic activities in rural areas.

The projects highlight inspiring examples of how to provide advice, training and networking opportunities to rural businesses, as well as targeted investment in the digital and physical infrastructure needed by rural business, both on-farm and in other rural sectors of activity.

EAFRD Projects Brochure 'Migrants and Refugee integration'

[20]

This edition of the EAFRD Projects Brochure explores how people in rural areas have used EAFRD support to respond to the challenges and opportunities presented by the recent influx of migrants and refugees into the European Union.

Without judgement on broader migration policy questions, the brochure aims to provide a picture of what is actually happening in several rural areas in Europe to deal with the evolving situation in more positive ways. It presents projects under the sub-themes of 'changing the narrative', 'jobs and the labour market' and 'coordinated responses'.

[EAFRD Projects Brochure 'Transition to Greener Rural Economies'](#) [27]

This edition of the EAFRD Projects Brochure explores how people in rural areas have used Rural Development Programme (RDP) funding - co-financed by the EAFRD - to support actions that can be part of the 'Transition to Greener Rural Economies'.

This transition is about taking advantage of economic opportunities that are environmentally and socially sustainable. It is also about pursuing improved environmental performance in ways that are economically and socially viable.

The projects reflect some of the breadth of relevant approaches that can be supported under the (RDPs), including: making a living from biodiversity; doing more with less; promoting green tourism; generating renewable energy from rural production; installing renewable energy infrastructure in rural areas; and cooperating for a greener economy.
