

Future networking needs

15th Rural Networks' Steering Group

David Lamb, Flavio Conti & Susan Grieve
ENRD Contact Point

25 May 2021

#RNSteeringGroup

MAs | Needs identified

- Updated CSP template, guidance documents, practical information and support (how to fill in tables on the SFC Portal...)
- Concrete examples of CSP intervention types (particularly for new types of interventions – e.g. eco-schemes) and links with Green Deal objectives
- Peer-to-peer exchanges, learning from the experience of other Member States, sharing ideas and working together to identify practical solutions (also with regard to the transition period 2020-2022)
- Dialogue and support to address the EC recommendations
- Involvement of regional authorities to different extents in the CSP preparation, implementation and monitoring

NRNs

Needs identified

- Learning from others on the implementation or transition to CAP networks
- Transition arrangements planned or organised by other Member States
- Retained support for LAGs during transition
- Improving links with AKIS and Pillar 1 initiatives such as Market Support
- New activity through agri-food value chains
- Collaboration between large regionalised Member States
- Continued development of communication and networking

- Support on developing and implementing cooperation, especially TNC
- Supporting LAGs through transition
- Strengthening LAG capacity, simplification and the use of SCOs
- Clarity around the programming of LEADER in CAP Strategic Plans
- Celebrating 30 years of LEADER and demonstrating its added value

Thank you for your attention
