knowledge transfer and innovation

Competitiveness / farm viability

Food chain organisation / risk management

Restoring. preserving and enhancing ecosystems

Resource efficiency / low carbon / climate

Social inclusion / poverty reduction / economic dev.

- 1.A fostering innovation and the knowledge base in rural areas
- 1.B: strenathening the links between agriculture and forestry and research and innovation

FOCUS AREAS

•1.C fostering lifelong learning and vocational training in the agricultural and forestry sectors

- 2.B: facilitating generational renewal in the agricultural sector
- 2.A: facilitating restructuring of farms facing major structural problems
- 3.A: better integrating primary producers into the food chain
- 3.B supporting farm risk management
- 4.A: restoring and preserving biodiversity. including in Nat. 2000 areas and **High Nature** Value farming and the state of European landscapes
- 4.B: improving water management
- 4.C: improving soil management

- 5.A: increasing efficiency in water use by agriculture
- 5.B: increasing efficiency in energy use in agriculture and food processing
- 5.C: facilitating the supply and use of renewable sources f energy, of byproducts, wastes. residues and other non food raw material for purposes of bioeconomy
- 5.D: reducing nitrous oxide and methane emissions from agriculture
- 5.E: fostering carbon sequestration in agriculture and forestry

- 6.A: facilitating diversification from the agricultural sector, creating new small enterprises and other forms of iob creation
- 6.B: fostering local development in rural areas
- 6.C enhancing accessibility to, use and quality of information and communication technologies (ICT) in rural areas
