1. Introduction to the LAG database

The [ENRD LAG database](#) and its linked [CLLD Partner Search tool](#) aim to encourage networking and cooperation among Local Action Groups (LAGs) across the EU.

As of January 2019, the **LAG database** contains the main funding and contact details of 3070 LAGs from all EU Member States. Each LAG has its own online profile that the LAG staff are able to expand with additional information, including on the LAG area, strategy and funding; potential interest in CLLD cooperation; and any LAG projects and documents.

LAG staff are also able to create CLLD cooperation offers and find project partners via the **CLLD Partner Search tool**.

This guide provides tips on how to efficiently search the **LAG database** to look up specific information on funding and cooperation interests of any one LAG or a group of LAGs.
