**CREATING
DATABASE AND
WEB-PAGE FOR
JUURU PARISH OLD
PHOTOGRAPHS**

Helene Kõiv
Estonian NRN

20.03.2018

HOW DID IT ALL STARTED?

- Local village enthusiast Mr Kalev Kiviste was collecting and presenting old photographs in Facebook 5-6 years ago.
- One photo every morning.
- Local community got excited!

"A great leader is important to get the stones rolling!"

- People were recognizing their relatives and friends on the photos.
- Writing interesting memuars to FB comments!
- Meeting right people ...

Project idea!

PROJECT INFO

- Period: **2017-2019**
- Beneficiary: Ulmulised NGO
- Received support from Estonian Rural Development Plan 2014-2020 for **LEADER** measure **19.2**
- Total budget: **5 935 €**

PROJECT AIMS

- To create and design database-website for old photos and stories.
- To present **local heritage** and **history** through photos.
- To do something **together** with the **community**.
- To learn **new aspects** of home-place and get to know **new people**.

◆ " A selfie is not a modern invention" ◆

PROJECT ACTIVITIES

- Collecting, digitalizing, maintaining and presenting **old photos on the website.**
- Adding descriptive photo "stories".
- **III categories:**
up to 1944;
1945-1988;
1988 - near future.

FOLLOW UP ACTIVITIES

- Organizing **thematic evenings** together with local community for discussing, memomirizing, inspiring!
- "**Geotagging**" the photos on the website - so everybody could know where exactly the photo has been made!
- **Expanding** to neighbour parishes? (Same web-site and database)

2019

RESULT

Already-made historic photos' platform/website for local people and enthusiast, family-tree-, historic-and cultural heritage explorers.

◆ "Happy goats in Juuru" (1988) ◆
