PLANED

Green/bio economy and sustainability - 1 Renewable Energy (RE) and CO2 reduction Cwm Arian Renewable Energy (CARE)

- 1 new network established- brings 'experts' together with community groups & businesses
- 13 community projects supported
- 500kW Turbine – Est. income £200kp.a. for 20-25 years
- Transport businesses supported to explore emerging low carbon technologies
- Supports 'grass-roots' groups to grow carbon reduction knowledge and skills and share practice and learning

Green/bio economy and sustainability -2 Circular Economy (CE)

- Pembrokeshire Remakery made strong links at LAG CE network events- now partner in Wales' first 'Green Shed' – hub for innovation and learning from community-led CE actions
- In 9 month scoping phase, 15 tonnes of waste diverted and 51 tonnes CO2 saved
- Added value: community-led actions influence decision-makers, regionally and nationally. Innovative actions that generate local green economy, develop skills and employment, while reducing waste and CO2

Diolch / Thank you
