

Workshop 5: Animal and area based measures in rural development 2014-2020

**ENRD Seminar
'Seizing the opportunities for Improving RDP
implementation 2014-2020'
11 June 2015**

List of relevant measures

- M10 - Agri-environment-climate measure (AECM)
- M11 - Organic farming
- M12 - Natura 2000 and WFD payments
- M13 - Areas facing natural other specific constraints
- M14 - Animal welfare
- M15 - Forest-environmental and climate services and forest conservation

Possible implementation issues

- Implementation happens at Member States' level
- Good implementation starts with the design of the measures
- Implementation experience can be incorporated as future amendments to scheme

Examples of possible issues in the implementation phase:

- Coordination between pillars – example: avoiding double funding
- Verifiability and controllability of the commitments/measure
- Clarity with regards to the baseline (reference level)
- Input reduction type of AEC operations
- Implementation of new features
