The general CAP questions

1. Why do we need a Common Agriculture Policy?
2. What are society's objectives for agriculture in all its diversity?
3. Why should we reform the current CAP and how can we make it meet society's expectations?
4. What tools do we need for tomorrow's CAP?

In the light of Europe 2020

The CAP can make a substantial contribution to smart, sustainable and inclusive growth in:

- promoting a dynamic, competitive and resilient EU agri-food sector capable of responding to the long-term global food challenge
- preserving the EU's natural resources (biodiversity, water, soil and carbon management) and tackling climate change
- realizing the growth and jobs potential of the EU's rural areas
