Examples of expected achievements

- Knowledge transfer and innovation in agriculture, forestry and rural areas will be boosted through supporting the development of innovative solutions through 27 operational groups under the European Innovation Partnership (EIP) and by creating 8 323 places in training courses targeted to the farm sector.
- Investments in around 1.5 % of all farms in the region will be supported with the aim at modernising and restructuring them.
- Almost 2 % of farms will receive support for young farmers to launch their businesses.
- In addition 186 projects will be supported in investing in agricultural holdings as well as processing and marketing of agricultural products.
- Nearly 36 % of the agricultural land will be under contract for biodiversity, 26 % for water management and 26 % for soil management.
- Around 9 % of the region's irrigated area will switch to more efficient irrigation systems.
- About 2 % of agricultural and forest land will come under management contracts related to carbon sequestration or conservation.
- LEADER Local Development Strategies (LDSs) will concentrate on improving the living conditions of half of the population of the region, on creating 225 new jobs and developing new business opportunities.

Examples of key challenges

- Unemployment is a key challenge for rural areas in Murcia (above 30 % unemployment rate), and of special importance among the youth (more than 50 %).
- The region suffers environmental challenges related to the insufficient availability of water resources in the present and high uncertainty for the future, as well as soil erosion.
- Another identified weaknesses are the low level of generational renewal in the primary sector and the small size of holdings.

Priority 1 is considered to be cross-cutting and no separate financial allocation is shown as the expenditure is distributed across other focus areas. Expenditure under Priority 4 is programmed for the priority as a whole, not for individual focus areas.
