Examples of expected achievements

- The RDP will support the development of 35 cooperation projects including 2 operational groups under the European Innovation Partnership (EIP) on Agricultural Productivity and Sustainability.
- The programme will provide support to 665 farms (5.8 % of the total) for their modernization and development.
- The RDP plans to support the generational renewal by supporting the installation of 840 young farm managers (7.3% of the total farms) throughout the programming period.
- It also aims to encourage 520 new farmers to focus on quality, to participate in short supply and other chains, and to carry out processing and marketing activities on their farms.
- About 6 % of the agricultural area will be under agri-environment-climate contracts.
- In addition, the programme will finance 85 projects for non-productive investments linked to the achievement of environmental objectives.
- The RDP will also support five Local Development Strategies (LDS) implemented by Local Action Groups (LAGs), which will benefit 26% of the population.

Examples of key challenges

- The Haute-Normandie Region is classified as "other region" as the GDP per capita exceeds the EU average.
- The socio-economic challenges in agriculture are mainly related to the fluctuations of field crops' prices and the competitive conditions in the world markets related to agricultural products and basic inputs. This particularly affects very intensive agriculture.
- In terms of surface water quality, it varies from low (45 %) to moderate (52 %), while for groundwater, the quality ranges from moderate (49 %) to good (for 52 %).
