OBJECTIVE

Initial position / background / local context of the proposed project (max 800 characters)

The starting situation or local context in which the projects is going to operate

We are a team project within the association AGAPE, gathering 10 elderly houses, mostly located on the LAG Pays de Retz, France. We observed a need for upskilling our staff members, and we have already started a serial of trainings and steps for improving both our staff quality conditions and the living conditions and new approach towards our residents and elderlies in general.

We thus promote quality and hygiene improvement in our structures, as well as professional risks prevention, and non-drug management and care.

After taking part in trainings related to these 3 subjects, our staff are eager to discover “on the field” an application within a structure, and to meet homologues for sharing good practices.

Proposed objectives / target group and activities (max 800 characters)

Our team project is now targeting any elderly house or similar structure in Europe dealing with these issues, to organize a preparatory visit in Spring 2017. The outcome of this visit will be the creation of a real partnership between our structures, to implement then an Erasmus+ project, in 2018, for staff exchanges.

The objectives of this preparatory visit are the followings:

- to meet similar structures in Europe
- to introduce our project, and share our mutual experiences
- to validate a partnership between our structures and let it develop for future projects, as the Erasmus+ project, the conditions of such an experience (terms, duration, period, received staff...)

Country and /or kind of partner you are looking for (ALL EU in case the interest is on any EU country)
