**Brief summary of the project idea** *(max 800 characters)*

Fisheries Local Action Group Pojezierze Dobiegniewskie is an association providing advice to potential applicants on FLAG projects. In order to properly fulfill its core mission, the FLAG should provide support to FLAG members who will in the future be beneficiaries of support from the European Maritime and Fisheries Fund to learn about good practices. Areas of interest for our FLAG are, in particular, innovative activities, which in our society should show new solutions to entrepreneurship. The application of new fishing industry techniques or the use of innovative solutions in tourism services should significantly benefit the local community. The second important issue for ours FLAG area is the development of tourism using the cultural heritage of the region. There are 16 nature reserves, national parks, over 60% of the lands in the FLAG, and cultural monuments dating back to the 14th century. FLAG are also home to more than 200 lakes rich in fish. The gastronomy of the area is a Burgundy Snail and venison.
